## SPECIAL ANIMAL VISITS

Since 2020, our animals have brought joy to residents in local Nursing Homes and Assisted Living Facilities. What started with llamas and alpacas making window visits during COVID has grown into a lively program, with volunteers now bringing a variety of animals inside for residents to interact with. Here's a testimonial from Lydia Steffen, CTRS, Activity Director at Harbor Haven Health and Rehabilitation...

*“Animal visits have lightened the mood among our residents and created confident experiences. These visits then encourage communication between residents, the animals and the handlers and increase social interaction. Animals bring back positive memories and provide an opportunity for reminiscing and stimulates cognitive function. After an animal visit, our residents continue to share their experiences, express joy and keep smiles on their faces.”*
